

Dear Parents and Community,

I am extremely honored and excited to serve as the Principal of Northwest High School for the 2022-2023 school year! I am privileged to have the opportunity to lead a campus that has such a dedicated and passionate community committed to the holistic success of their students.

During my 14 year educational tenure, I have been dedicated to the positive growth and development of all students. I truly believe that if we make sound and positive investments into the lives of all children, it will yield bountiful results both academically and behaviorally, thus making the educational system one of the greatest vehicles used to evoke societal change. As an educational community, I along with the faculty and staff are looking forward to a transparent and collaborative partnership with all of you to ensure that the students of Northwest become successful and productive citizens who lead with integrity in an ever changing society.

As your new Principal, I am committed to cultivating an environment of student excellence which includes four foundational principles: a cohesive and collaborative environment, holistic child development, strategic instructional leadership and structured campus management. Our vision and mission will always be centered around the holistic development of our students.

A formidable partnership between home and school is imperative to ensure the overall success of our children here at NWHS. I wholeheartedly believe that we are better together! I want to encourage all parents to communicate with our dedicated teachers and staff to ensure that we are meeting your needs. We are elated that you have chosen NWHS as the place to educate your students. Thank you for entrusting us with the opportunity to provide a safe and productive learning environment for your child. Please stop in or call me to share any ideas, concerns, or questions. I wish your family, and especially your students, great success this school year!

Dedicated to Serving Your Children,

Principal Hall,
Northwest High School

One Mind, One Mission...Holistic Student Excellence!
